5) From this it will be seen that there were 91 convicts of the C & M Stn on that date, of whom 38 were eligible under the rules, for employment on extramural labour. Against this number 21 were sent to out-door work including the number of convicts sent to the Residency.

Letter No.3934, dated the 9th October 1916, from the President, Municipal Commission, C & M Station, Bangalore, to the First Assistant to the Hon'ble the Resident in Mysore.

I have the honor to report, for the information of the Hon'ble the Resident, that the Executive Engineer finds he cannot get on with the road repairs in the Civil and Military Station as quickly as he did before owing entirely to the shortage of cooly labour. Where he was able to get 100 men six months ago he can only get 50 now, the reduction has been gradual and it is possible that further reduction will go on as the men are being engaged by the Military Department for servic in Mesopotamia at more than double the wages we can afford to pay from the Municipal Fund.

2. It would be most awkward and disastrous to stop road work altogether; so it has been suggested that an attempt be made to have jail labour if possible at ordinary municipal rates, to complete all consolidation work atleast during the next five months, as it is during these months only that metal consolidation can be done satisfactorily.

3. As the Civil and Military Station criminals form part of the jail population, I have the honour to request that the Durbar may be moved to spare some of the criminals for municipal road cooly work. According to the last return there were about 60 criminals from the Station in the Central Jail.

SIR,

With reference to your letter No. J 1793 dated the 20th November 1916, I have the honor to intimate that the six convicts out of the 21 sent for extramural labour as stated in my Un-Official Note, dated 2-11-1916, are being employed with other convicts, at the Palace and the Dewan Sahib's quarters.

2. The Superintendent, Bangalore Central Jail has now reported that the other 17 convicts of the Civil and Military Station, who are eligible for extramural work and employed for Jail purposes, can be spared from their present work, if required.

3. In this connection, I have to bring to your kind notice that considerable difficulty is experienced by the Jail authorities in finding suitable men, who could answer the conditions of chest and height measurements prescribed by Government for employment as warders in the Jail. The maximum number of convicts alloted to the Palace, the Dewan's quarters and the Residency could not therefore be sent for want of proper guard.

Furnishes the particulars called for regarding the employment of C & M. Sh convicts confined in the B. C. jail.

It would be much more difficult to procure the services of an extra number of suitable warders to guard the out-door gangs, if more convicts are alloted for extramural labour, even though ~~they~~ convicts can be made available by utilizing those that are now employed on Jail duties and other out-door gangs.

4. Under the circumstances it is not possible to supply convict labour to Civil and Military Station Municipality..
